

LIVE ACTION VIDEO

Filmed footage of the site and surrounding area including key local landmarks and amenities.

Talking heads interviews from project team.

Eye level and drone video.

A scenic view of a park. In the foreground, a paved path leads towards a bridge. The bridge has a dark metal railing with ornate designs and a series of green, arched supports. The sun is shining brightly through the trees in the background, creating a strong lens flare effect that illuminates the path and the bridge. The surrounding area is filled with lush green trees and foliage.

MOTION GRAPHICS

Either 2d or 3d graphical sections and buildups.

These graphical elements can be overlayed over CGI or live action footage to explain architectural concepts and the buildings programming and usage.

These graphics can also label important elements and features of the development and local area.
